Do you want to help kids succeed in school? 
Be a Behavioral Assistant in the New Brunswick/ Piscataway Public Schools

Behavioral Assistants (BAs) will work as part of a team under the direct supervision of experienced professional Behaviorists. This unique opportunity will allow BAs to interact with teachers and children and implement cognitive-behavioral interventions to address behavioral difficulties for students in New Brunswick/Piscataway public school classrooms. This is a 1 credit per semester and preferably full academic year long (for 2 credits total).

Behavioral Assistants will be expected to:

- Work in schools for approximately 3 hours per week.
- Attend and participate in regularly scheduled training/supervision recitations to communicate about classroom/student progress on target behaviors.
- Provide direct support to students and classroom teachers through implementation of Applied Behavior Analysis (ABA).

BAs are required to provide their own transportation to and from their service site. Because stability is so important to the children involved, preference will be given to students who are prepared to make a two-semester commitment.
